

BRILLIANT ELEVATOR

- Chinese Pride
- Trust by the world

BLT is the self-owned brand ranking with global elevators and the pioneer leading Chinese elevator to the world, providing the world-renowned buildings with perfect service. It is committed to making the intelligent transportation of every building more secure, comfortable and convenient, and to keeping creating science and technology benchmark.

Yuanda Intellectual Industry Group has been adhering to Three self developing marketing network, relying on marketing network with perfect layout, having the whole world in view and comprehensively realizing the function of integration and radiation of global business and service network.

After years of effort, BLT has set up over 140 sales service outlets in domestic and abroad, 7 wholly-owned subsidiaries in Peru, Mongolia, Singapore, Russia, Australia, Morocco and Papua New Guinea and one holding subsidiary. It has set up factories in India and Iran. Its own worldwide marketing service network has been built completely, which can provide lifelong top-level professional, high-quality, fast and convenient service for global customers.

YUANDA GROUP

Shenyang Yuanda Enterprise Group (hereinafter referred to as "Yuanda Group" or "Yuanda"), established in 1993, was a high-end and comprehensive high-tech enterprise, and now it has developed into a large-sized enterprise group supported by Intelligent Construction Industry, Intelligent Industry, Intelligent Agriculture, Scientific and Technological Industry, and Financial investment. And make two companies successfully go to public.

- In the field of intelligent construction industry, Yuanda mainly focuses on developing curtain wall and industrial housing.
- In the field of intelligent industry, Yuanda focuses on developing elevator manufacturing, frequency conversion, energy-saving motor, wind-power generator, and industrial robot.
- In the field of intelligent agriculture, Yuanda focuses on developing intelligent dripping system, precision irrigation facilities, and agricultural machinery manufacturing.
- In the field of scientific and technological industry, Yuanda focuses on developing industrial robot, high-power ultrasonic application, vibration engineering application, system simulation, industrial engineering, and realizing the industrial information.
- In the field of financial investment, relying on China's "One Belt, One Road" strategy, Yuanda is dedicated to new energy business, finance and investment, trade and product agency, and the global resource integration.

SHENYANG YUANDA INTELLECTUAL INDUSTRY GROUP CO., LTD (BLT ELEVATOR)

Shenyang Yuanda Intellectual Industry Group Co. Ltd (002689.SZ) is found in September, 2001, a professional elevator manufacturer engaged in the developing, designing, manufacturing, selling, installation, and after-sales service of complete elevator products. BLT has passed ISO9001:2008 Quality System Certificate, ISO14001 Certificate of Environment Management System and GB/T28001 Occupational Health and Safety Management System Certificate. In addition, BLT products have all obtained the CE certification of EU, GOST certification of Russia and CSA certificate of North America.

In 2010, the company built the Elevator Industrial Park in Shenyang west industry corridor for international management. The factory covers an area of 480 thousand square meters. This is the world important developing and manufacturing base of elevator. After years of effort, BLT has set up more than 220 sales service branches both at home and abroad, 5 wholly-owned subsidiaries and one joint-stock subsidiary in Australia, Papua New Guinea, Singapore, Mongolia, Peru, building a worldwide sales service network and providing "lifelong" after-sale experience for every customer with its professional, high-qualified, fast and convenient service.

The company owns modern R&D center. The 177 meters high elevator test tower in the center of the factory is currently the highest one in China, with 11 test shafts, and a 10m/s high speed elevator technological test being feasible. The completed test and inspection center owns 12 libraries, one trial factory, and is equipped with 77 sets of advanced test/inspection devices. Besides, all the kinds of performance tests of complete elevators and components can be carried out in the center, which provides advanced, scientific and powerful guarantee for the research, development and stabilization of products.

26 thousand square meters large single workshop (multiple)
